

# Angel Rivera

angel@angelsagirlsname.com

## Summary

Graphic designer and programmer with experience in integrating user experience and process flow with business goals.

Demonstrated skills in:

- Managing group projects
- Client relations
- Web standard programming
- User-centered design
- Identity development
- Dynamic page layout design
- Multimedia integration
- Copywriting

## Accomplishments

Designed, developed, programmed, and managed several robust, community-oriented, content driven, user friendly web sites.

Formed and lead class campaigns for greener practices in both the fast food industry and the online community Second Life.

Designed and authored two published books, which can be found at several libraries across the country.

Helped to found the AIGA student chapter of the University at Buffalo, the first AIGA student chapter in Western New York.

Co-founded a freelance design partnership with Douglas Brooks, offering services in web and graphic design.
